AUDITOR'S REPORT TO THE MEMBERS ON REVIEW OF INTERIM FINANCIAL INFORMATION

INTRODUCTION:

We have reviewed the accompanying Condensed Interim Balance Sheet of **Mubarak Textile Mills Limited** ("the company") as at December 31, 2016, and the related condensed interim profit & loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement and condensed interim statement of changes in equity together with the notes forming part thereof for the half year ended (here-in-after referred to as the "condensed interim financial information"). Management is responsible for the preparation and presentation of the condensed interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this "condensed interim financial information" based on our review. The figures included in the condensed interim profit and loss account and condensed interim statement of comprehensive income for the quarters ended December 31, 2015 and 2016 have not been reviewed and we do not express a conclusion on them as we are required to review only the cumulative figures for the half year ended December 31, 2016.

SCOPE OF REVIEW:

We conducted our review in accordance with the International Standards on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of the condensed interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION:

- 1. The condensed interim financial information of the company have been prepared assuming that company will continue as a going concern as explained by the management in note 3 to the interim financial information. The company has earned a Profit of Rs. 0.021 million (Loss of Rs. 0.754 million; June 30,2016) during the period ended December 31, 2016 as of that date and the company's current liabilities exceed its current assets by Rs. 49.54 million (Rs. 50.028 million; June 30, 2016). In our opinion these factors raise the doubt that the company may not be able to continue as a going concern.
- 2. Managementhas not revalued its property , plant and equipment as required by IAS-16 "Property , Plant and Equipment" to be carried out on consistent basis ,ideally after every three years by the independent valuer. Due to cessation of operation indicators of impairment of property plant and equipment exist. Management has not performed any impairment test with regard to such assets.
- The company has obtained short term running finance facility from Faysal Bank Limited amounting to Rs. 28 million has not been renewed since January 01, 2015.
- 4. The company has not carried out, since the year ending June 30, 2003, revaluation of its property, plant and equipment as required by IAS-16 and as such the carrying value of these may materially be different from that as disclosed in the Financial Statements as of December 31, 2016.

Based on our review, because of the pervasive effect on the financial statements of the matters discussed in the paragraph 1 to 4, the accompanying interim financial statements do not give a true and fair view, in accordance with approved accounting standards as applicable in Pakistan for Interim Financial Reporting.
